

# Ready for your winter on the Dachstein Krippenstein?

The Dachstein Krippenstein in the Upper Austrian Salzkammergut impresses with an exciting outdoor programme - far away from the mainstream. On the ski slopes, the Dachstein Krippenstein shines with special skiing qualities - easy slopes for warming up and learning to ski on the mountain and in the valley, in between the challenging and, at nine kilometres, one of the longest downhill runs in Austria!

A ski touring Eldorado also awaits you on the Dachstein plateau. From relaxed half-day tours to ski tours lasting several days, there is something for everyone. And if you want to take it a little easier, you can explore the Dachstein Krippenstein on snowshoes. The three marked snowshoe trails and winter hiking paths lead to the 5 fingers, the World Heritage Spiral and the Dachstein shark.

The Dachstein Krippenstein is also a hot spot for freeriders. Rough rocky ridges, varied slopes and selective forest routes demand fitness and concentration. More than 30 kilometres of freeride variants and powder routes and a whopping 1,500 metres difference in altitude await you.

For an all-round perfect experience, we also pay attention to the issue of sustainability. In addition to e-charging stations, all lift systems are supplied with electricity from renewable energy sources! Sustainable, naturally!

The Dachstein Krippenstein is an area of the „Bergbahnen Dachstein Salzkammergut“. This umbrella brand now includes all locations of OÖ Seilbahnholding GmbH with Dachstein West Gosau, Russbach und Annaberg, Feuerkogel Ebensee, Grünberg Gmunden und Dachstein Krippenstein Obertraun.

After the huts there is a short and somewhat steep ascent, now continue eastwards for approx. 100 metres to the Heilbronner chapel. Now turn left downhill and then right again for approx. 200 metres down the slope until you reach a dip, then the path climbs slightly up to a hilltop. The trail starts at the mountain station on the Dachstein Krippenstein, where the markings also begin. First, the trail leads along the ski piste towards the chairlift valley station, where you reach a platter lift in the valley after approx. 15 minutes. After crossing the lift track at the upper end, you leave the secured ski area. The route now descends slightly in open terrain and then climbs again for approx. 15 metres. At this point you will also find the small Krippenstein ice cave, which you can explore on your own when there is little snow. Approx. 50 metres after the ice cave, the path branches off to the left and you follow a slightly inclined slope for approx. 20 minutes in a north-easterly direction to the Dachstein shark. Return along the same path.

Tip: Stop off at the mountain restaurant and enjoy home-style cooking with a fantastic view.
